

HASHTAGS TO BUILD LIKES AND FOLLOWERS

Checklist

STEP 1

BEFORE you post your image, find relevant hashtags that are going to engage with your audience

Instagram is very powerful and it uses hashtags to reference its images.

Go to the website www.tagsforlikes.com

Here you can find the most popular hashtags that you should consider using for any niche that you are in. Using these will help you to get maximum views and engagement.

STEP 2

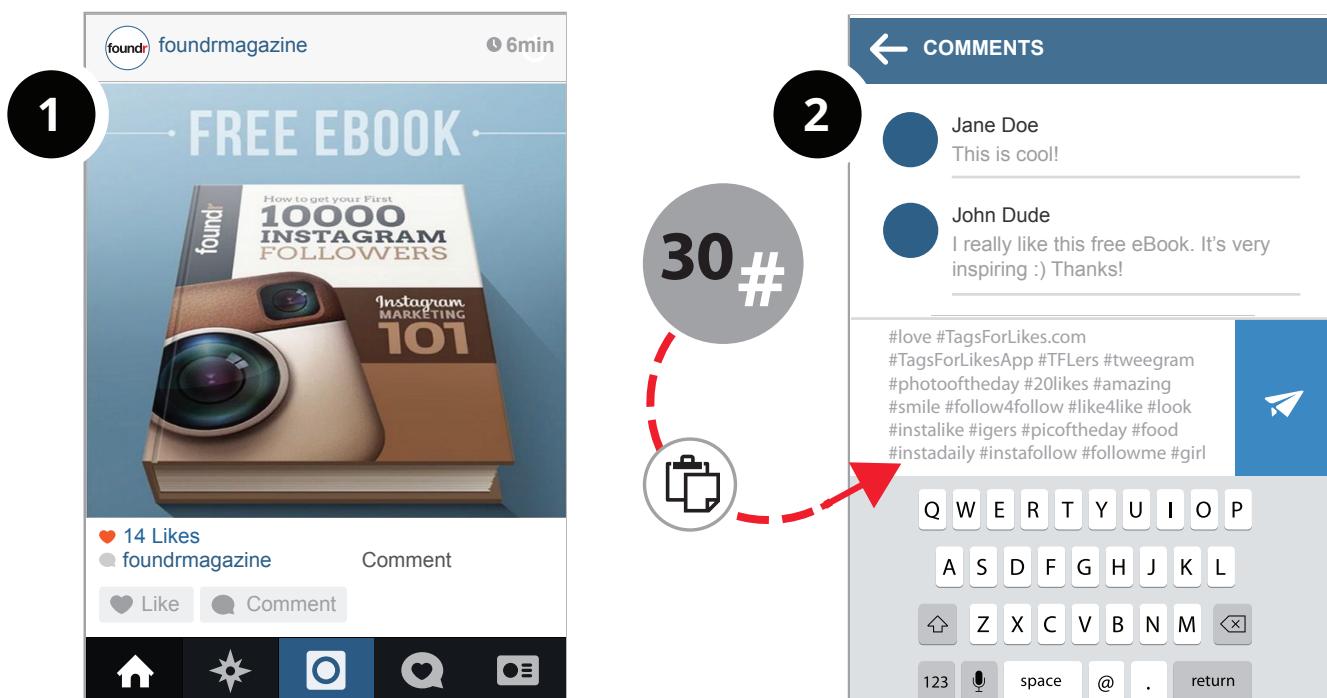

Before you post your image.

Find your niche/area and then copy the maximum number of hashtags (30) into another app on your phone such as "Notes" or "Evernote".

STEP 3

Here's where the magic is! Post your image first, and then paste your hashtags into the comments section (NOT in the caption).

STEP 4

Sit back and enjoy the extra likes, followers and attention you will instantly get from this simple little hashtag hack!
